Miss Anna Johnson, of 24 Front street, Columbus, Ohio, says: "I suffered from an aggravated form of constipation and indigestion for several months. My family physician tried all kinds of medicines and pills, but to no effect. I began to think my case was a hopeless one. A friend of mime (Mrs. Elvira Redmond, of East Long street, this city), called, and seeing the condition I was in, recommended me to try your MANALIS. I must say I had but little faith in the medicine, but after I had taken a few doses I was convinced that MANALIS was the medicine for me. After I had taken one bottle I was entirely well of my complaint. I consider it one of the best remed as for constitution I have ever used. I have several triends who are using it. They think it an excellent remedy. I recommend it to all who are afflicted with constitution or indigestion. Any one doubting this statement is invited to call on me at 24 Front street."

Mr. Milton Knotts, Urbana, O., writes: "Last November one year ago I was takensick, and called in our family physician. He examined me and said I had symptoms of typhoid fever. He gave me medicine for two weeks or more without any relief. I began to think that my days on earth were fast closing in. I saw at once that his medicine would not reach my disease, Just at I was about to conclude that I would have to die, my daughter brought me one of your pamphilets. AGAINST THE ST. JOHN TICKET. Why Prohibitionists Should Leave It Alone. The Duty of the W. C. T. U.-A Strong Letter from Mrs. J. Ellen Foster. There are hundreds of letters being written to those who have been promi-

nently identified with the prohibition cause in Iowa and other States, asking what course is the wisest and best for avowed temperance people to follow. Some are urging the support of the St. John ticket, while others who look at the subject more clearly and with more forsight, deprecate such action as unwise, untimely, and sure to be unfortunate for the cause of temperance. We are permitted to print below a private letter from Mrs. J. Ellen Foster to Rev. Dr. E. K. Young, of this city, which will be read with great interest at this time. Mrs. Foster is known all over the United States as one of the foremost workers in the cause of prohibition, and an efficient officer in the National Women's Christian Temperance Union, ther advice will be given the weight to which her successful work for years in the temperance cause entitles it. The letter is as follows: Some are urging the support of the St.

Re. E. K. Young, D. D., Des Moines, In.

My Dran Fried, "My allegiance in
mubile work is first of all due to the
Woman's Christian Temperance Union. I
believe that as a National organization we
should be non-partisan in our attitude toward the political questions of the day,
even toward party prohibition. It is my
sincere conviction, strengthened by a personar knowledge of the work the country
over, that the overthrow of the liquor
traffic will be soonest accomplished if our over, that the overthrow of the liquor traffic will be soonest accomplished if our organizations withholding party effort and give themselves wholly to the regular ands of temperance work which have been developed by God's providence thring the ten years since the crusade. We have some twenty-live distinct departments of work under the general divisions, preventive, educational, evangelistic, social and legal. These cover every phase of the question, and afford the widest scope for the work of our organization. I deprecate greatly the seeming attempt on

during the ten years since the crusade. We have some twenty-five distinct departments of work under the general divisions, perventive, educational, evangelistic, social and legal. These cover every phase of the question, and afford the widest scope for the work of our organization. I deprecate greatly the seeming attempt on the part of some of our women to ally the National Woman's Christian Temperance Union with the National Prohibition party. I believe the larger part of our membership and of our best advisers deplore what they consider an unwarranted and an untenable position.

Having been chosen by the National Union Superintendent of the Department of Legislative work and petitions, I must keep myself free from partisanship. As an individual I cannot and do not smother my convictions. Either James G. Blaine of Grover Cleveland will be President of these United States, as between them I do not see how any christian voter can hesitate. Writing as I do from this city of liddado, where Clevekand's home is—no where he lives—he hasno home—I do not hesitate to say, as for me and mine, let it be the true husband, the honest father, the home man—James G. Blaine.

Further than this, I do not believe the demand for National Constitutional prohibition is the "best endossement of prohibi-ition is the "best endossement of prohibi-ition is the "best endossement of prohibi-ition with the victions is a proper than the chairs." getting their gossip before the public without talking to death the victims in

Further than this, I do not believe the demand for National Constitutional prohibition is the "best endorsement of prohibition principles." The prohibition of the liquor trafic is not, by either the letter or spirit of the constitution, the subject of National legislation. It must come by States; it can come in no other way, unless by an arraned resistance to law in the States it should become necessary for the General Government as a war measure to aid the States by military intervention. Peaceable revolution according to constitutional methods must come by State legislation. So also just as prohibition cannot be carried in a State 'till a considerable number of voters in the State are themselves prohibitions; so national prohibition states. When three-quarters of the States agree the constitution of the United States may be amended and national prohibition states. When three-quarters of the States agree the constitution of the United States may be amended and national prohibitions are the rule of the land. It is sometimes argued that the thirteenth was possible states, to a some the source of the land. I honor John P. St. John; he has my high esteem, my profound respect, and so of Mr. Dankel, of whom I am honored by numbering among my personal friends. I believe they each were actuated by the high mottlee of disinterested patriotism; I simply do not agree with them as to this one method of obtaining what we all desire.

I do not see how there can be two odditions as to the duty of Iowa Prohibitionists. I have no arithmetic with which to estimate the mextal calibre or the moral sense of any Iowa man who claims to be for temperance and does not stand by the Republican party, with the rights and privileges conferred by the "bad man's plank,"

The Prohibitionists of Iowa, dwelling in the Caman of triumphant majorities, even though their enemies be not yet all cast out, can hardly appreciate the weariness, even the bitterness, of those stilling the wilderness with their children claif ying agravated form, and during the summer months with Hay Fever. the Prohibitionists of Iowa, dwelling in the Canam of triumphant majorities, even though their enemies be not yet all cast out, can hardly appreciate the weariness, even the bitterness, ofthose still in the wilderness with their children daily dying by the wayside. God has many ways of accomplishing. His purposes; there are many battations in His great army. Let us not sit in judgment upon these who differ with us as to what is the most effective mode of warfare at this particular point of time in the long stragele. Let no friend be disburbed at this difference of opinion; let-no enemy be rejoiced thereby, we shall still keep "the unity of the spirit in the bond of peace," and in the final victory shall rejoice together. The Dairyman says: "It is stated that a new method of washing butter has been patented in Germany. As soon as gathered in the churn in particles of about a tenth of an inch in size it is transferred to a centrifugal machine, whose dram is pierced with holes and lined with a linen sale that is finally taken out with the butter. As soon as the machine is set in rapid motion the buttermilk begins to escape; a spray of water thrown into the re-Washing Butter. rapid motion the battermilk begins to escape; a spray of water thrown into the revolving drum washes out all the foreign matter adherring to the butter. This washing is kept up till the last drop of water is removed, as clothes are dried in the centrifugal wringer. The dry butter is then taken out, moded and packed. It is claimed that the product thus so fully and quickly freed from all impurities, without any working or kneeding lass a flavor, aroma and grain and far better keeping qualities than when prepared for market in the ordinary way.
